Welcome to the Austrian Wine stand!

We are pleased that after four years we can once again be present in person at ProWine Shanghai 2023.

The whole world has changed a lot during this time, and the Chinese market has also developed. China is an important export market for wine from Austria and Shanghai in particular is a key hub for connecting with customers from all over China.

Please use this opportunity to explore outstanding Austrian wineries at nine stands present at the fair and a further 18 Austrian wineries represented at our Austrian Wine bar. Moreover, you have the chance to gather more in-depth knowledge about Austrian wine at our masterclass at the fairgrounds and at two pop-up seminars at the stand.

Taste through Austria's high-quality, environmentally consciously produced wines from a diversity of regions and varieties. At the Austrian Wine stand you can discover our wine culture and taste through a great wine selection. Enjoy our flagship varieties Grüner Veltliner or Zweigelt (Rotburger), as well as our other successful indigenous and international varieties and hidden treasures like sweet wines and Sekt Austria (PDO).

During the planning of the tasting, we were able to rely on the expertise of Advantage Austria under the project management of Marion Tschernutter and her team.

In addition, I would like to thank my team – especially Helene Scheidl and Michaela Poiss – for their efforts in this major project.

The biggest thanks, however, goes to all those of you who visit our Austrian Wine stand. We look forward to bringing you closer to the world of Austrian wine!

Cheers and prost!

AUSTRIA. ENVIRONMENTALLY CONSCIOUS

© Austrian WineBlickwerk Fotografie

Environmental protection, biodiversity and the responsible use of natural resources have always been important concepts in Austria. Furthermore, strict legal provisions, combined with small, family-run wineries, result in a strong drive to preserve the ecosystem and ensure suitable conditions for future generations.

For the past few decades, Austria's agricultural policy has had a strong environmental focus, including strict regulations and subsidies aimed at erosion control and avoiding the use of herbicides and insecticides. Thanks to organic winegrowing being particularly widespread, together with the "Nachhaltig Austria" (Sustainable Austria) certification, Austria is a global leader in terms of environmentally conscious viticulture.

CERTIFICATIONS AND PRODUCTION METHODS

20% of area
under vine

Nachhaltig Austria (Sustainable Austria)

SUSTAINABLE
AUSTRIA

"Nachhaltig Austria" logo

Founded by the Austrian Winegrowers Association (Weinbauverband Österreich), this label is awarded to sustainable wine producers. Around 360 measures across nine categories (climate, raw materials, energy, soil, biodiversity, water, quality and both social and economic factors) are assessed using a unique, scientifically developed online tool. Producers enter their own data for evaluation. Certification is awarded if the winery meets the (continually rising) targets in the tool and passes an inspection by an external body.

22% of area
under vine

Organic Viticulture

The "EU organic" logo

The "EU organic" label guarantees the quality of products grown in compliance with the guidelines of the EU organic production regulation. Compliance is assessed annually by officially accredited inspection bodies. Organic viticulture centres around the promotion of healthy soil by advocating responsible soil cultivation methods and plant protection products of natural origin, with the aim of strengthening the resistance of the vines. The use of herbicides, synthetic chemical pesticides and genetic engineering is prohibited.

3% of area under vine
15% of all organically
cultivated vineyards

Biodynamic Viticulture

"Demeter" logo

"respekt-BIODYN" logo

Biodynamics is rooted in the work of the Austrian anthroposophist Rudolf Steiner and revolves around the fundamental principle of a self-contained, self-sufficient farming cycle. Two associations in Austria, Demeter and respekt-BIODYN provide members with guidelines on growing wine biodynamically. Organic certification is a prerequisite. Although Demeter operates internationally, Demeter Austria sets additional targets. Founded in Austria, respekt-BIODYN represents members in 4 countries who strive to produce wine of the highest individuality and quality.

FV = Frühroter Veltliner	PN = Pinot Noir	ZF = Zierfandler
GL = Goldmuskateller	(Blauburgunder)	ZW = Zweigelt
GO = Goldburger	RR = Riesling	

Further abbreviations

AL = Alcohol

RS = Residual sugar

AC = Acidity

TYP = Wine types - explanation see page 2

TBA = Trockenbeereauslese

Ried = Legally defined single vineyard site

“1ÖTW” = Wines from the best vineyards, defined by the Association “Österreichische Traditionsweingüter” (“Erste Lage”). Classification not anchored in the Austrian wine law.

“1STK” = Wines from premium vineyards defined by the Association „Steirische Terroir- und Klassikweingüter“ (“Erste STK-Lage”). Classification not anchored in the Austrian wine law.

“GSTK” = Wines from the most prized vineyards defined by the Association „Steirische Terroir- und Klassikweingüter“ (“Große STK-Lage”). Classification not anchored in the Austrian wine law.

Type 1: Perlweine & Sekte

Austria can look back on a venerable tradition of sparkling wine, one that dates back to the 19th century. Our specialists in the sparkling sector include private producers, as well as large Sekt houses. Whether Sekt Austria (PDO) of the basic category or the traditionally vinified pétillant naturel (Pét Nat), these wines are ideally suited not only to the classic role of apéritif but also prove their versatility as dinner-table companions. Fruit and refreshment share the foreground in these easily drinkable light sparklers (Perlwein) and Sekts.

Type 2: Sekt Méthode Traditionelle

Traditional bottle fermentation is the most time-consuming and costly process for making sparkling wine: it takes a lot of time, and the typical ‘riddling’ of the bottles during ageing is often performed by hand. Austria’s top products – especially Sekt Austria (PDO) Reserve and Grosse Reserve – are produced according to this method. The result turns out as characterful and highly elegant Sekts, which do not need to fear any international comparisons.

Type 3: White wines - classic & refreshing

Classic white wines from Austria get top marks for their freshness and fine acidity – which they combine with considerable elegance in a middleweight frame. These can be found in all our winegrowing regions: refreshing and regionally typical Grüner Veltliner & Riesling from the regions along the Danube River, peppery Weinviertel DAC, delicious Wiener Gemischter Satz DAC, classic Weissburgunder & Chardonnay from Burgenland or spicy Welschriesling & Sauvignon Blanc from the Steiermark. Youthful wines such as Junger Österreicher, Steierischer Junker or Junger Wiener are the first to appear on the calendar in the classic & refreshing category, and can be tasted soon after the harvest.

Type 4: White wines - powerful & opulent

These stars of Austrian white wine culture are vinified dry, exhibiting body and extract, opulence and concentration. In addition to the majority of classically elaborated wines, here you will also find wines matured in barrique with a bit of an international accent. Among the elite one finds single-vineyard wines vinified from Grüner Veltliner and Riesling (like Smaragd bottlings from the Wachau), and top wines from regions along the Danube or from the Weinviertel. Other very distinctive vinous personalities include robust Zierfandler and Rotgipfler from the Thermenregion, as well as complex Weissburgunder and Chardonnay from Burgenland. This category is rounded out by the great single vineyard wines from the Steiermark (Sauvignon Blanc, Morillon, Weissburgunder & Grauburgunder), as well as specialties such as Neuburger, Roter Veltliner and the Gemischter Satz from Vienna.

Type 5: Rosé wines

Rosés are produced in all winegrowing regions of Austria and assume many forms: charming, youthful wines from Burgenland, or fresh stylings vinified from Zweigelt and Sankt Laurent in Niederösterreich, all the way to racy Schilcher from the Weststeiermark (some designated as a regionally protected Weststeiermark DAC). Burgenland also has its own protected appellation of origin for fruity-fresh and spicy rosé wine: Rosalia DAC Rosé.

Type 6: Red wines - classic & elegant

Red wines in the classic style – with *élevage* either in large wooden cask or steel tank, with typical Austrian fruit but also plenty of depth, without being too high in alcohol – which express the typicity of their origins, with elegance and an inviting nature. Zweigelt plays an important role, since it grows quite happily in almost all viticultural regions – though Carnuntum comes up first here – and classically vinified Blaufränkisch can also be convincingly distinctive. This group is rounded out by specialties such as Sankt Laurent, Blauburgunder (Pinot Noir), Blauer Portugieser & Blauburger.

Type 7: Red wines - intense & opulent

These are red wines that possess opulence, concentration, complexity and depth, vinified either as single varietal wines or as *cuvées*. Even with aging in *barriques*, these top wines are characterised by the typical depth of fruit characteristic of their *terroir*. The premiere destination for red wines of this sort is Burgenland – although top red wines can also be found coming from Carnuntum, the Thermenregion or even Vienna. It is satisfying to note that our typical Austrian grape varieties such as Blaufränkisch & Zweigelt might even do just a bit better here than classics like Pinot Noir and the international varieties Cabernet & Co.

Type 8: Alternative wines

A precise definition of ‘Orange Wines’, ‘Artisan Wines’ or ‘Natural’ wines – often referred to collectively as ‘Alternative Wines’, does not exist. What they have in common, however, is that they often develop as far as possible without human intervention during their process of becoming wine. Owing to oxidative development and/or extended maceration time, the white wines will also develop a distinct tannin structure – and even some colour from the skins – in combination with fresh acidity and earthy fruit. Growers who produce exceptional wines in these new – or actually old – ways can be found in all of Austria’s winegrowing regions.

Type 9: White wines - off-dry & medium-sweet

Wines in the upper Spätlese or Auslese class rank among the most ageworthy wines in Austria. In their youth they exhibit a great deal of *finesse*, combined with supple residual sweetness and a lively interplay between fruit and acidity. The palette ranges from Muskat Ottonel or Welschriesling from Burgenland, via (Gewürz)Traminer from the Steiermark, Grüner Veltliner and Riesling from various winegrowing regions, to the great Spätlesen or Auslesen vinified from the specialty varieties Zierfandler and Rotgipfler in the Thermenregion.

Type 10: Nobly sweet wines

These include Beerenauslese and Trockenbeerenauslese, as well as the classy and refined Ruster Ausbruch. These rare sweet wines are characterised by ample residual sugar and highly concentrated acidity, usually in conjunction with the distinctive aroma of noble rot (*Botrytis cinerea*). Such wines continue to develop in an exciting way over a long period of time and have great ageing potential – and Austria plays here in the Champions League. Eiswein with expressive, luxuriant fruit and sizzling acidity – as well as Strohwein and Schilfwein, which exhibit flavour profiles between *Botrytis* and Eiswein – also belong to this category.

Winery Buchmayer - wines with elegance and fruitiness. Pursuit of quality in conjunction with the experience of generations determine the quality of the wines of winery Buchmayer from Pillersdorf. The traditional family, which has existed since 1767, the Grüner Veltliner and the Zweigelt prescribed and can also refer to an excellent Sauvignon Blanc and a finesse Pinot Noir. The white wines are made by winemaker Thomas Buchmayer in the typical Weinviertler style, very fruity and dry, red wines are characterized by great elegance and fruitiness

Sekt

Klein, limitiert, in aller Ruhe gereift.

A-NOBIS (lat.: from us): Exclusive sparkling wines by Norbert Szigeti, traditionally bottle-fermented. Small, limited, matured in peace.

The name reflects the clear origin. The "A" stands for Austria. It is an Austrian regional product, from the grape to the finished sparkling wine in the bottle.

NOBIS also features the initials of the founders: NORbert and BIRgit Szigeti. The entrepreneurial couple has been running the A-Nobis sparkling wine cellar since 2018. Numerous awards testify to the high quality of the products and confirm their commitment. A-Nobis sparkling wine is offered exclusively to private customers, gastronomy and specialised trade.

Brachmann winery is a small estate, cultivating six hectares of vineyards in the center of Lower Austria, close to Austria's capital Vienna. Kathrin Brachmann has now been at the helm of the winery since 2017.

After completing her training, she took on the challenge of restructuring her father's business and producing wines according to her own ideas. The focus is on the character of every single variety. The wines should reflect the typicity of the wine region "Traisental". In cultivation, they limit themselves to five grape varieties that feel particularly well on the local deep loess and conglomerate soils.

*Dockner
Tom*

The Traisental for me is at the same time home, centre of life and mission and my wine is an expression of all that. His basis, he finds in the soil and climate: unique calcareous soil, affected by conglomerate rock and glacial gravel, characterizes the region. Hot days, influenced by the pannonian area, alternate with the nights, where the spicy, cool air from the Dunkelsteinerwald sweeps into the valley. The Danube takes away the blazing heat during hot days as well as the icy wind in cold nights. This interaction makes it possible to taste the specific origin in every single wine.

Seeking for representation!

Agent: Weinhandel Martin Cerny

Mother Maria and daughter Anna are passionate winemakers. All their grapes are hand-picked. The closeness to nature is particularly important to them. They are organic farmers. The results are elegant compositions that carry the entire essence of the Weinviertel. This is best illustrated by the two flagship products of the winemakers, the Cuvees Köchler Verzeichnis 507 and Köchler Verzeichnis 508, named after Mozart. Maria founded the winery a good 20 years ago as a career changer. After internships in Germany and New Zealand, however, daughter Anna now rules the wine cellar. The studied oenologist was named Austria's young winemaker of the year by Selection magazine. Together the two live a success story in the tranquil village of Eibesthal that is far from over.

People in the little hamlet of Mailberg, situated in the Northwest of the Weinviertel have been growing grapes for centuries. The vineyards are located on the slopes of the Kettle valley and provide the perfect protection against the biting north wind, yet also allow for constant sunshine. The annual rainfall in Mailberg measures 500 mm on average.

The limestone soil with its clayey sands and in loess contributes to the excellent quality of grapes. This quality is also guaranteed by the authorised seal of quality.

Mailberg has approximately 600 inhabitants.

The Hagn winery is a family business, with 50 hectares of vines, which are located in the best parts of Mailberg.

FAMILIE REINISCH

Here in the Thermenregion south of Vienna lies Johanneshof Reinisch. Vineyards are planted with 65 % red and 35 % white vines. There is a strong link between tradition and modernity, with vineyards growing on excellent soil, the most advanced technology of our time, and the experience of generations that have always had high ambitions for the present and the future. There is a particular focus at Johanneshof Reinisch on the Burgundy varieties such as Chardonnay, Pinot Noir and St. Laurent. In the area of Gumpoldskirchen the indigenous grape varieties Rotgipfler and Zierfandler are cultivated. The Reinisch family is producing wine in the fourth generation and since 2022 a member of the ÖTW Österreichische Traditionsweingüter.

Markowitsch

The district of Carnuntum is developing into a multifaceted winegrowing area.

Here, whites from Grüner Veltliner to Chardonnay evolve to top qualities just as much as reds. Gerhard Markowitsch championed particularly consistently during the last years. He is a born all-rounder creating a range of top quality wines distributed equally between both red and white grape varieties.

Falstaff Magazine already awarded him the title:
"Winemaker of the year in 1999."

The wines of Gerhard Markowitsch have been highly acclaimed internationally."

NEUMEISTER

Christoph Neumeister is the third generation to run the renowned winery. The organically cultivated vineyards are steep and feature meagre limestone-sediment soils. The Illyrian-Pannonian combination climate and high precipitation levels can make cultivation challenging but allow a long growing season and late harvest. In the cellar, thoughtful and careful work is emphasized, including long maceration on the skins, spontaneous fermentation, long yeast contact periods and a late bottling. The results are structured and elegant wines with clear terroir. The premium wines come from top sites Saziani and Moarfeitl as well as Klausen and Steintal. In addition, the family runs the Saziani Stub'n restaurant and the boutique hotel Schlafgut Saziani.

PESAU

FALKENSTEIN

Andreas and Georg Pesau, two of four brothers, have taken over the Pesau family wine estate a few years ago. The family traces a tradition of making wine for over 300 years. In fact, the first time the Pesau family was mentioned in connection with wine in Falkenstein dates back even 400 years.

The Pesau family's vineyards are located around the historical wine making region covering Falkenstein's hills, almost 60 km to the Northeast of Vienna. Falkenstein offers an excellent geological and structural setting for producing wine. Working organic in this cool climate area, Weingut Pesau stands for very fresh, mineralic and unique wines.

WOHLMUTH®

WEINGUT ANNO 1803

Since 1803 the Wohlmuth family has been dedicated to the cultivation of wine. Wohlmuth is a synonym for outstanding rich and complex wines, which express the special terrain of Kitzeck: steep slopes, schist soil, a microclimate with a great variation in temperature and a limited handpicked yield. Gerhard Wohlmuth an enthusiastic, nationally and internationally trained winemaker has succeeded year after year in producing award winning wines on national and international level.

HAJSZANNEUMANN
WIEN

The Hajszan Neumann winery is located in Vienna's most famous wine-growing district, Grinzing, at the foot of the Nussberg. Much passion is invested in certified biodynamic viticulture to yield elegant, unadulterated wines with authentic expression. Fritz Wieninger, pioneer of quality wine production Vienna took over management of this winery in 2014 where he concentrated on the production of Wiener Gemischter Satz, Riesling and Grüner Veltliner. The vineyards, most of which are owned by the star architect Heinz Neumann, are located in the best sites of Vienna with the Nussberg playing the leading role. The mineral-rich marine limestone and weathered calcareous soils impart wine expressive character.

Attentive observation of nature, biodynamic cultivation, unbridled biodiversity above and below the earth's surface: Gernot and Heike Heinrich's idea of terroir wines is based on a deep understanding of the diverse living environments within their vineyards. The aim is to create a natural balance in which vines, people, plants and animals act in symbiosis and form the decisive elements of a whole. The natural prerequisites are cool steep limestone slopes on the Leithaberg, a modulated topography with a warmer climate near the winery in Gols, and a handful of autochthonous grape varieties led by Blaufränkisch. Undogmatic, handcrafted vinification gives the wines the freedom to speak of their origins in an unadulterated and clear voice. They lay the foundation for continuous evolution.

LOIMER

Authentic wines are always distinguished by their roots. They tell a story. Our wines tell of their origin, of the power of nature and the respectful treatment of soil, plants, animals and people. Our ideal is to be understood as a kind of “closed operating organism”, which, if possible, creates and utilises all elements of agricultural production itself.

The result is pure origin: individual wines, shaped by their place of origin, created to the rhythm of nature. With patience, precision and minimal influence, independent, sometimes controversial.

Family Sattler place great value on working closely with nature to produce the wines. Since 2016 vintage, our wines carry the green seal of organic certification. We cultivate multiple small parcels in very steep slopes at optimal elevations. It is a very demanding task to deal with the unpredictable climate with abundant precipitation in Südsteiermark, but this is also what forms the inimitable character of our wines. For this reason, we categorize our wines according to origin: "Gebietsweine" are regional wines sourced from various vineyards in Südsteiermark, "Ortsweine" are village wines from Gamlitz and Eichberg vineyards, "Riedenweine" are single-vineyard wines from Ried Kapellenweingarten, Ried Sernauberg, Ried Kranachberg, Ried Pfarrweingarten and Ried Trinkaus

The family-run Weingut Wieninger operates as a nature-oriented and biodynamic winery in the metropolis of Vienna. The highest quality and respect for nature as well as sustainability - which has been followed for generations - are the core values. The winery offers a wide range of natural wines that represent the uniqueness of the Vienna region. Highly rated as well, the wines celebrate success at international tastings and are exported to more than 40 countries on four continents.

At our new location, we offer tastings and on site sales as well as visits through the winery, seminars and vineyard walks. We are easily reachable via public transportation.

Hans and Uli Setzer belong to those generation of Austrian winemakers who raised wine to a lifestyle. Making wine and enjoying it is passion and challenge together. The Setzers work true to nature because the vinyards shall deliver healthy and natural fruity grapes to the children of their children, too. The Setzer's enthusiam belongs to Gruener Veltliner which they select and vinify in different varieties every year.

Importer: ASC Fine Wines (Headquarters)

Bründlmayer manages vineyards in the best locations around Langenlois. All of the vineyards have been cultivated sustainably since 1979 and in a biological-organic fashion since 2015. Among the Grüner Veltliners are stars like "Loiserberg", "Lamm" and "Käferberg". Among the Rieslings "Steinmassl" competes with the elegantly structured "Heiligenstein". The "Alte Reben" and "Lyra" of the Heiligenstein embody terroir and concentration. Hugh Johnson quotes "Bründlmayer Brut" as "Austria's Best Sekt".

Zweigelt, Pinot Noir and Chardonnay belongs to Bründlmayer's acclaimed specialities as well as the rare sweet wines. "Almost every wine, from the lightest Grüner Veltliner to the red wine and the sparkling wine has what it takes to be the best of the vintage in its category." (Falstaff)

Originally, today's Ettl winery was a so-called "mixed operation".

Johanna and Paul Ettl not only grew grapes, but also vegetables and grains.

In the 1980s, the successors, Christa and Paul Ettl, concentrated on growing wine and began converting to organic farming.

The next generation has been on board since 2006: Michael and Christian Ettl. The two will take over the helm of the traditional Ettl ship in the next few years, with more and more new routes and insights.

The motto remains: We work with nature. Not against them.

The winery Urbanihof in Fels am Wagram has a 400-year-old-history and is now in its 11th generation. Since 2016 the winery produces organic wine and we are very pleased to offer our clients honest quality in an ecological way.

Franz Paschinger manages the winery with dedicated attention to detail. The vineyards are densely populated in order to achieve a healthy competition among the plants and revenue is deliberately kept low. We work very hard on offering our clients only the best of the best and we know that switching to organic production in order to keep a healthy soil is the most efficient way to keep our promises.

Robert and Marietta Keringer have been running the winery in the oldest wine-growing community in Austria for 17 years now. The family business in Mönchhof is located in the Neusiedlersee DAC wine-growing region and the majority of red wines are vinified. Grapes from almost 100 hectares of vineyards are processed. The most important varieties are Zweigelt, St. Laurent and Blaufränkisch, but also Grüner Veltliner and Chardonnay. A special feature of the winery is the processing of the rare Rathay variety. It has always been important to the winemaker couple to produce exceptional wines, that are still easy to drink and understandable. The winery is regularly rewarded with national and international awards and their wine-growing business is now one of the most awarded in Austria.

AUSTRIAN WINE BROCHURES

REGIONAL & IMAGE BROCHURES

The wine country of Austria offers a wide variety of landscapes, grape varieties and wine styles. The information brochures summarize the most important facts in a compact way: discover the 7 elements that are responsible for the uniqueness of Austrian wines. Find out more about Austria's „Liquid Gold“, the typical grape varieties of the country or sparkling Sekt Austria (PDO). Or delve deeper into Austria's wine-growing regions with the comprehensive regional brochures.

TRAINING MANUAL

Training manual „Austrian Wine in Depth“: Anyone who wants to succeed as a specialist in the constantly changing world of wine must continue to educate themselves. With the current version of our training manual, we offer a compact compilation of the most important information for both professional and private wine lovers who want to update and deepen their knowledge of Austrian wine.

CULINARY BROCHURES

Due to their compact body and the climate-related freshness, Austria's wines are ingenious accompaniments to a wide variety of dishes and cuisines - from schnitzel to sushi, from pasta & pizza to the finest cheeses in the world. In our culinary brochures you can find out which Austrian wines go best with which dishes. Cheers & enjoy!
