Type 1: Perlweine & Sekte

Austria can look back on a venerable tradition of sparkling wine, one that dates back to the 19th century. Our specialists in the sparkling sector include private producers, as well as large Sekt houses. Whether Sekt g.U. at the Klassik level or the traditionally vinified pétillant naturel (Pét Nat), these wines are ideally suited not only to the classic role of apéritif but also prove their versatility as dinner-table companions. Fruit and refreshment share the foreground in these easily drinkable light sparklers (Perlwein) and Sekts.

Type 2: Sekt Méthode Traditionelle

Traditional bottle fermentation is the most time-consuming and costly process for making sparkling wine: it takes a lot of time, and the typical 'riddling' of the bottles during ageing is often performed by hand. Austria's top products – especially Sekt g.U. Reserve and Grosse Reserve – are produced according to this method. The result turns out as characterful and highly elegant Sekts, which do not need to fear any international comparisons.

Type 3: White wines - classic & refreshing

Classic white wines from Austria get top marks for their freshness and fine acidity – which they combine with considerable elegance in a middleweight frame. These can be found in all our winegrowing regions: refreshing and regionally typical Grüner Veltliner & Riesling from the regions along the Danube River, delicious Wiener Gemischter Satz DAC, classic Weissburgunder & Chardonnay from Burgenland or spicy Welschriesling & Sauvignon Blanc from the Steiermark. Youthful wines such as Junger Österreicher, Steierischer Junker or Junger Wiener are the first to appear on the calendar in the classic & refreshing category, and can be tasted soon after the harvest.

Type 4: White wines - powerful & opulent

These stars of Austrian white wine culture are vinified dry, exhibiting body and extract, opulence and concentration. In addition to the majority of classically elaborated wines, here you will also find wines matured in barrique with a bit of an international accent. Among the elite one finds single-vineyard wines vinified from Grüner Veltliner and Riesling (like Smaragd bottlings from the Wachau), and top wines from regions along the Danube or from the Weinviertel. Other very distinctive vinous personalities include robust Zierfandler and Rotgipfler from the Thermenregion, as well as complex Weissburgunder and Chardonnay from Burgenland. This category is rounded out by the great single vineyard wines from the Steiermark (Sauvignon Blanc, Morillon, Weissburgunder & Grauburgunder), as well as specialties such as Neuburger, Roter Veltliner and the Gemischter Satz from Vienna.

Type 5: Rosé wines

Rosés are produced in all winegrowing regions of Austria and assume many forms: charming, youthful wines from Burgenland, or fresh stylings vinified from Zweigelt and Sankt Laurent in Niederösterreich, all the way to racy Schilcher from the Weststeiermark (some designated as a regionally protected Weststeiermark DAC). Burgenland also has its own protected appellation of origin for fruity-fresh and spicy rosé wine: Rosalia DAC Rosé.

Type 6: Red wines - classic & elegant

Red wines in the classic style – with élevage either in large wooden cask or steel tank, with typical Austrian fruit but also plenty of depth, without being too high in alcohol – which express the typicity of their origins, with elegance and an inviting nature. Zweigelt plays an important role, since it grows quite happily in almost all viticultural regions – though Carnuntum comes up first here – and classically vinified Blaufränkisch can also be convincingly distinctive. This group is rounded out by specialties such as Sankt Laurent, Blauburgunder (Pinot Noir), Blauer Portugieser & Blauburger.

Type 7: Red wines - intense & opulent

These are red wines that possess opulence, concentration, complexity and depth, vinified either as single varietal wines or as cuvées. Even with aging in barriques, these top wines are characterised by the typical depth of fruit characteristic of their terroir. The premiere destination for red wines of this sort is Burgenland – although top red wines can also be found coming from Carnuntum, the Thermenregion or even Vienna. It is satisfying to note that our typical Austrian grape varieties such as Blaufränkisch & Zweigelt might even do just a bit better here than classics like Pinot Noir and the international varieties Cabernet & Co.

Type 8: Alternative wines

A precise definition of 'Orange Wines', 'Artisan Wines' or 'Natural' wines – often referred to collectively as 'Alternative Wines', does not exist. What they have in common, however, is that they often develop as far as possible without human intervention during their process of becoming wine. Owing to oxidative development and/or extended maceration time, the white wines will also develop a distinct tannin structure – and even some colour from the skins – in combination with fresh acidity and earthy fruit. Growers who produce exceptional wines in these new – or actually old – ways can be found in all of Austria's winegrowing regions.

Type 9: White wines - off-dry & medium-sweet

Wines in the upper Spätlese or Auslese class rank among the most ageworthy wines in Austria. In their youth they exhibit a great deal of finesse, combined with supple residual sweetness and a lively interplay between fruit and acidity. The palette ranges from Muskat Ottonel or Welschriesling from Burgenland, via (Gewürz)Traminer from the Steiermark, Grüner Veltliner and Riesling from various winegrowing regions, to the great Spätlesen or Auslesen vinified from the specialty varieties Zierfandler and Rotgipfler in the Thermenregion.

Type 10: Nobly sweet wines

These include Beerenauslese and Trockenbeerenauslese, as well as the classy and refined Ruster Ausbruch. These rare sweet wines are characterised by ample residual sugar and highly concentrated acidity, usually in conjunction with the distinctive aroma of noble rot (Botrytis cinerea). Such wines continue to develop in an exciting way over a long period of time and have great ageing potential – and Austria plays here in the Champions League. Eiswein with expressive, luxuriant fruit and sizzling acidity – as well as Strohwein and Schilfwein, which exhibit flavour profiles between Botrytis and Eiswein – also belong to this category.

Domäne Wachau, lead by Roman Horvath MW and Heinz Frischengruber, has developed into one of the top-wineries in Austria, with an excellent range of Wachau wines that beautifully reflect origin. World-famous vineyards such as Achleiten, Kellerberg and Singerriedel are just a part of the wealth of top sites managed by Domäne Wachau. The work of the vintner families is of crucial relevance to the entire winery. With many of these families active for several generations on the steep terraces of the Wachau, they know the special features of each vineyard plot. Through their loving attention to detail combined with enormous experience, they ensure that there is ecological balance, promote the diversity and increasingly rely on organic farming.

In vino veritas That is how I make wines.

Honest viticulture without compromises that is the slogan of Erich Machherndl. Some may call him stubborn, for his first goal is to produce wines for his customers to enjoy the success at international contests comes inevitably along.
Erich Machherndl has no problems with tradition; but finds it as important to breach with clichés for instance with his Syrah, which is rather new in Austria.

The winery Machherndl is situated in the heart of the Wachau, Austria´s most famous region for the best wines. The area can easily be recognized by the characteristic hills Kollmitz and Kollmuetz on the river banks of Danube.

TEGERNSEERHOF

The Mittelbach family's Tegernseerhof, located in Unterloiben, just below Dürnstein, boasts a tradition dating back to the year 1002. The original facilities were built in 1176 by the Benedictine community of the Tegernsee Abbey. Today, Martin Mittelbach is the sixth generation of owners and the current part of this history. The name has been preserved, like the ancient knowledge of viniculture, passed on from one generation to the next. The vineyards are located on the best slopes of the Wachau region. The Tegernseerhof is a member of the exclusive association "Vinea Wachau", therefore the vinification follows the strict regulations of the "Codex Wachau".

Weingut
JURTSCHITSCH
Langenlois

For many people, the Jurtschitsch wine estate in Langenlois with its winery building dating from the 16th century and the 700-year-old natural cellar labyrinth ranks among the most impressive wine estates in Austria. A place with history and architectural beauty. Its wines, however, have shaped the senses-over time, across the spirit of the time and beyond all borders.
Grüner Veltliner and Riesling in particular have inspired tasting notes & history for years. With Stefanie and Alwin Jurtschitsch of the younger generation, they are now in the very best of hands.
The Falstaff quotation "There is hardly any other winery which is able to offer the best of quality across the entire wine portfolio with such reliability", is being brought up to date virtually on its own.

"I like to surprise myself" says Fred Loimer. He definitely is and always was - good for surprises! Such as in 2000, in Langenlois, where he wedded a historical brick vaulted cellar with a minimalist black cube, thus creating a lovely architectural cellar ensemble. Or, in 2006, when he began to apply bio-dynamic methods to his vineyards. With that, Loimer founded one year later with fellow winemakers the respekt BIODYN association, which focuses on the continuous and consistent implementation of biodynamic principles in viticulture.

SCHLOSS GOBELSBURG is the oldest winery in the Danube appellation Kamptal with a documented viticultural history dating back to the 12th century. Cistercian monks from Burgundy received their first vineyards in 1171. Today the estate is concentrating on the typical expressions of the Danube appellations in all categories (regional, village, single vineyard). Beside the classical Danube wines, the estate is producing a few specialities like quality sparkling wine (4 cuvees), a few red wines based on the Pinot family and some sweet wines. Another speciality is historical winemaking which is the content of the TRADITION wines. The estate is member of the association 'Österreichische Traditionsweingüter' , who is establishing a vineyard classification system in Austria.

The typical peppery spice of Pfaffl's Veltliner, called "PFAFFL.Pfefferl" is one of the main terms in the Austrian wine scene. In general, the family's name is a synonym for top quality. The driving force behind this was and still is Roman Pfaffl's love for the Grüner Veltliner, which is presented by the family in all of its different characters. But it is not only this typical Weinviertel grape variety, which won the hearts of the enthusiastic family, it is also elegant red wines to be presented at the highest level by the Pfaffls. The law behind their wines is, that quality grows in the vineyard. And their desire is to bring the best of their homeland to a national and international audience. In 2016, Weingut Pfaffl was awarded the title of "European Winery of the Year".

Having such a wonderful name as Weinwurm, the miller Anton Weinwurm thought 60 years ago that he simply could not go on milling for the rest of his life, and so he planted a vineyard in Dobermannsdorf. Though the Grüne Veltliner turned out to his surprise to be a Zweigelt Ultimately, this laid the foundation for the unusual wine diversity of the Weinwurms.
Since 2001, Anton's grandson Georg Weinwurm and his wife Lisa are the heads of the winery, energetically supported by all members of the family.
Dobermannsdorf has an exceptional position with Pannonian influence in the north-eastern region of Weinviertel. The mild climate contributes to the high quality of grapes which develop very favourably in the main growing area of the Grüner Veltliner. Our tip: The rare Roter Muskateller!

However, the couple exhibits a deft touch as well with the vinification of their red wines, which constitute 30% of the area under vines. The most important red grape varieties are Zweigelt and St. Laurent.

A tendency towards the exceptional

Around 400 years of family tradition, a philosophy of viniculture bound up with nature, and innovative "esprit" are the cornerstones for wine growing at WEINGUT CHRIST. The vines, the most important capital assets, stand on the gentle, south-facing slopes of the Bisamberg, on the north-eastern boundary of the city of Vienna.
The geological variety is unique, and stretches from alluvial, ice-age, terraced gravel, through weathered chalks interspersed with limestone, to layers of loess and slate. At the end of the day this balance between vineyard and cellar delivers fine wines full of character with great structure, which will melt in the mouths of friends of high-quality wines.

The ARTNER wine estate encompasses 40 hectares of some of the best wine-growing locations in Carnuntum. This ambitious wine region is located in the eastern part of Austria, close to Vienna. These areas are primarily south-facing slopes and benefit from the climatic influence of the Neusiedler See and the nearby Danube. The Artner wine estate has specialized in Austrian grape varieties such as Zweigelt and Blaufränkisch. A wide range of excellent white wines, which display the typical characteristics of their region, is also available. In addition to the Austrian varieties, the estate also has many years experience in the vinification of Syrah, Cabernet Sauvignon and Merlot and succeds in producing complex, harmonious wines with wonderful potential every year.

Walter Glatzer has been one of the first to believe in the capability of the vineyards of Carnuntum to excel and was therefore essential in developing the style of Carnuntum wines and inspiring other young winemakers in the area. He stands for fruit-driven elegant wines with silky tannins and mild acidity which offer drinking pleasure with substance. While many winemakers used a lot of new oak and sought more concentration in their wines, Glatzer stuck to his credo, "Typical regional character and terroir cannot be expressed in extremely tannic and heavily oaked wines." Because the region is dominated by the warm Pannonian climate, nearly 70% of the estate□s 50 hectares are planted with red wines, mainly Zweigelt, but also Blaufränkisch and Sankt Laurent.

The personal goal as a member of the Austrian traditional wineries is to work out the uniqueness and typicities of the individual grape varieties with a focus on their origin - above all, the most important single vineyard wines. The basis are the vines and therefore the cultivation of the vineyards according to organic guidelines. While Franz contributes his experience, his knowledge & tradition, Christina provides new ideas & innovations - in short, they complement each other perfectly and it is precisely this combination that forms the unmistakable basis of Netzl wines.

Attentive observation of nature, biodynamic cultivation, unbridled biodiversity above and below the earth's surface: Gernot and Heike Heinrich's idea of terroir wines is based on a deep understanding of the diverse living environments within their vineyards. The aim is to create a natural balance in which vines, people, plants and animals act in symbiosis and form the decisive elements of a whole. The natural prerequisites are cool steep limestone slopes on the Leithaberg, a modulated topography with a warmer climate near the winery in Gols, and a handful of autochthonous grape varieties led by Blaufränkisch. Undogmatic, handcrafted vinification gives the wines the freedom to speak of their origins in an unadulterated and clear voice. They lay the foundation for continuous evolution.

The Winery Helmut Lang cultivates an estimate of 18 hectares of vineyards in Illmitz, the heart of the Seewinkel. We are located in the wine growing region Neusiedler See in the east of Austria. The pannonian climate in the Seewinkel is ideal for the botrytis noble rot. This and the surrounding soils of the Neusiedler See give us the possibility to produce wine at the highest level.
All our wines are fermented spontaneous. With that, we give our wines the freedom to express themselves. As a result they reflect our work in the vineyards, the unique climate and the soil of the Pannonian lowlands forthright and with
full honesty.

The vineyards are situated in Burgenland, on the northern shore of lake Neusiedl: the eastern side around the town of Gols (clay/loam/gravel/sand) and the western side around the town of Jois on the Leitha mountains (slate/limestone). The winery focuses on red wines and the main varieties are Blaufränkisch, Zweigelt and Merlot. The wines represent their unique Pannonian style, characterized by elegance, complexity, and longevity.

WEINGUT ERNST
< herkunft zählt >

Seriously. An adjective that has always accompanied Bernhard Ernst since his start in 2005. Already then, it was his goal to press serious wines. However, to a large extent, the whole thing was improvised - an experiment in his parents' garage, young and wild, just as he was.
To this day, nothing has changed in producing serious wines. However, the general conditions have changed. A tasteful new winery, a woman who "is now dreaming his dream along" was added. Structure, order and a hint of feminine elegance were introduced. With Sylvia Ernst, a woman from Vorarlberg decided to live from now on not in the west but in the east of Austria and to dedicate her heart and soul to this new task.
